Anne Hansen made a motion to approve the minutes, Travis Holt seconded the motion, the motion approved unanimously.

II. SNAP plan

- a. Report on any hazards observed.
 - i. Cyndi Harrison - Forest Creek Bend an Regal Stream

This area is a dangerous area especially during winter with poor walking conditions. We are also concerned the students crossing Highland Drive and Creek Road with no crossing guard on duty.

- ii. Kurt Stevens - Creek Road.

Kurt traveled Creek Road and there are parts without a sidewalk and sharp curves, he thinks it should still be considered a hazardous route and included in the SNAP plan.

- b. Danger regarding students crossing the entrance of Oakdale Parking lot.

We discussed this dangerous crossing and recommend that the safest way is for the students to cross with the crossing guard.

III. Budget Review

- a. Review any recent expenditures and plan for future need.

Looking at the budget we will spend nearly all of the LandTrust money by the end of the school year. We will have about \$11K left in Cell Tower that we'd like to hang on to, to help with technology needs.
